

Scale 1:5

- Kerabit green roof vegetation, Sempergreen sedum mat
- Suitable substrate soil, thickness e.g. 30...60 mm
- Filter fabric, e.g. N2
- Platon DE 25 sheet for water drainage and storage
- Waterproofing e.g. VE80
 - Kerabit Root Prevention Membrane, TL 2
 - Kerabit underlay membrane TL 2 according to the substrate, e.g. Kerabit 3300 UTL/
Kerabit 3200 UTL Fleece/Kerabit 3000 U
- Waterproofing substrate, e.g. rough tongued and grooved boards or moisture-proof tongued and grooved construction panels
- Load-bearing substructure according to the structural design
