

## Kerabit Eaves Strip

Päivitetty 22.5.2023 Tulostettu 31.7.2025

Kerabit Eaves Strip is a modified bitumen strip for the lower eave of a bitumen shingle roof.

The carrier of the product consists of strong polyester with a modified bitumen coating on both sides. The underside surface is coated with adhesive bitumen and the top with slate granulates.

## Technical data

|                                 |  |
|---------------------------------|--|
| Manufacturer / Manufactured for | Kerabit Oy, Lohja plant  |
| Country of origin               | Finland  |
| Quality control                 | Quality control carried out at the Plant quality control and a quality control agreement between the Plant and Eurofins Expert Services Oy |
| Nominal thickness               | approx. 3,6 mm   |
| Nominal weight                  | 4000 - 4400 g/m <sup>2</sup>   |
