

## Kerabit 5000 TOP FR

Päivitetty 25.4.2023 Tulostettu 9.2.2026

Kerabit 5000 TOP is a torchable (K-PS 220/5000 torch-on) top membrane of product category 2 for multi-layer roofing. The product is suitable for use with structures featuring a bitumen-laminated PIR thermal insulation with a fully attached TL 2 underlay membrane (Kerabit Base or Kerabit 3000 U). There is no need for a bearing layer of wool between PIR insulation and the underlay membrane, enabling faster installation.

Kerabit 5000 TOP FR has a reinforced polyester felt as a carrier. The bottom surface of the product features modified torch-on bitumen, and the top surface slate granules.

The product colour is grey. Kerabit 5000 TOP FR is made to order.
