

## Kerabit 5100 T

Päivitetty 16.5.2025 Tulostettu 2.7.2026

Kerabit 5000 TOP is a torch-on top membrane in multi-layer membrane system.

The carrier consists of polyester. The underside of the product is coated with torch-on bitumen and the top side with slate.

The color options are grey, brown, green, white, red, light gray and black. Other than gray and black are made-to-order products. Also black has slate on the top side.

### We have improved the Kerabit 5000 TOP membrane

The thinner and more easily melting protective plastic film and the grooves on the bottom surface allow for a faster and more secure installation.

The protective plastic film is only partially attached to the torch-on bitumen, thanks to the grooves. Therefore, it melts faster and more reliably than traditional plastic films fully connected to the bitumen, reducing the heat and gas required in the installation. The product's adhesive properties have also been improved.

## Technical data

<b>Manufacturer / Manufactured for</b>	Kerabit Oy, Lohja plant
<b>Country of origin</b>	Finland
<b>Conformity marking</b>	CE mark
<b>Reaction to fire</b>	Manufacturer's fire testing certificate
<b>Fire Classification</b>	B <sub>ROOF</sub> (t2)
<b>Manufacturer's declaration of conformity</b>	Kerabit modified bitumen roofing materials
<b>Quality control</b>	Quality control agreement between the Plant and Eurofins Expert Services Oy
<b>Nominal thickness</b>	approx. 4,4 mm
<b>Nominal weight</b>	5000 kg/m <sup>2</sup>
<b>Weight of the supportive layer</b>	170 g/m <sup>2</sup> (+/- 10 g/m <sup>2</sup> )
<b>Supportive layer</b>	polyester
<b>Surface type</b>	slate granulates
<b>Rolls size</b>	1 x 8 m / 8 m <sup>2</sup>
<b>Colours</b>	grey, brown, green, white, red, light gray and black (other than gray and black are made-to-order products)
<b>Packages / pallet</b>	24 rolls
