

Kerabit 5500 T

Päivitetty 16.5.2025 Tulostettu 28.8.2025

Kerabit 5500 T is a torch-on top membrane that can also be used as a single-layer membrane.

SBS modified bitumen membrane with polyester carrier. The underside of the product is coated with torch-on bitumen and the top side with slate (grey and red) or slate granulates /slag (black).

We have improved the Kerabit 5500 T membrane

The thinner and more easily melting protective plastic film and the grooves on the bottom surface allow for a faster and more secure installation.

The protective plastic film is only partially attached to the torch-on bitumen, thanks to the grooves. Therefore, it melts faster and more reliably than traditional plastic films fully connected to the bitumen, reducing the heat and gas required in the installation. The product's adhesive properties have also been improved.

Technical data

Manufacturer / Manufactured for	Kerabit Oy, Lohja plant
Country of origin	Finland
Conformity marking	CE mark
Reaction to fire	Manufacturer's fire testing certificate
Fire Classification	B _{ROOF} (t2)
Manufacturer's declaration of conformity	Kerabit modified bitumen roofing materials
Quality control	Quality control agreement between the Plant and Eurofins Expert Services Oy
Nominal thickness	approx. 4,5 mm
Nominal weight	5500 g/m ²
Weight of the supportive layer	220 g/m ² (+/- 10 g/m ²)
Surface type	slate granulates
Rolls size	1 x 8 m / 8 m ²
Colours	Grey, black and red
Packages / pallet	24 rolls
Weight / package	44 - 48 kg
Weight / pallet	1081 - 1177 kg

Additional information

Handling and storage

Modified bitumen membranes are to be stored on pallets in a dry and cool place. Use a plastic hood or tarpaulin for protection. When the outdoor temperature exceeds +40°C, the rolls must be protected from sunlight.

Applications

This product can be used as a top membrane of a multi-layer membrane system and as a single-layer membrane.
